HARD SKILL

- Experience with frameworks (e.g., Laravel, React JS, Flutter ...)
- Version control (Git/GitHub)

SOFT SKILL

- Effective Communication
- Teamwork
- Information Literacy
- Researching

VOLUNTEER

- CADT Robocon 2024
- Air Tech Competition (ATC)
- Air Tech Show (ATS)
- Connected the official Telegram channel of the President of Cambodia to the population of Takeo Province
- Participants_UN Hackathon Hanoi 2025

PROFILE

Passionate and driven Junior Web Developer & UX/UI Designer with strong skills in JavaScript, Vue.js, and Nuxt.js, and hands-on experience building responsive, user-friendly web applications. I specialize in bridging the gap between clean interface design and efficient frontend development, supported by practical knowledge of Laravel, REST APIs, database operations, and Dokku deployment. Proficient in Git/GitHub, I thrive in collaborative team environments and enjoy solving complex problems to turn creative ideas into functional products. I am eager to contribute full-time to a dynamic team, bring immediate value, and grow as a permanent professional.

EDUCATION

Cambodia Academy of Digital Technology (CADT)

Bachelor Degree of Software Engineering

Jan 2023 - Present

American University of Phnom Penh (AUPP)

Japanese IT Pathway Program

Jan 2025 - Present

WORK EXPERIENCE

Office of the Council of Ministers(Meeting System)

Full-Stack Developer

JAN 2026 - PRESENT

- Built a **Vue.js** participant portal with modules for meeting access, calendar viewing, room guidance, attendance verification, and single sign-on login.
- Implemented **passcode-based attendance tracking**, document preview, and step-by-step room navigation with map images.
- Delivered **Khmer UI** and responsive design across all modules.

Office of the Council of Ministers-Internship (Civil Servant Profile Management System)

Full-Stack Developer

JAN 2026 - MAY 2026

- Built a full-stack web application using Laravel and Vue.js to digitize civil servant records for a government agency.
- Designed PostgreSQL database schema and implemented secure authentication with Laravel Passport (OAuth2) and Telegram OTP.
- Developed full CRUD operations with cascading soft-delete for officer profiles, including personal, family, education, and achievement data.
- Automated QR code and ID card generation, and integrated PDF export with search/filter/pagination features.

LANGUAGES

- Khmer (Native Language)
- English (Upper-Intermediate)
- Japanese

TverTask CapStone - School Project II

Front-End Developer

OCT 2025 - DEC 2025

- UX/UI Designer & Frontend Developer specializing in crafting intuitive and visually engaging experiences across Dashboard, Leaderboard, Gamify XP, Music integrations, and Avatar features. Skilled in designing user-centered interfaces, improving usability, and delivering clean, responsive layouts that enhance overall product experience.

Wintech Software Development(Cambodia)Co., Ltd - Internship (CMS Website)

Full-Stack Developer

MAY 2025 - AUG 2025

- Experienced in implementing authentication flows, integrating web views, and building clean, responsive user interfaces. Focused on delivering smooth user experiences, optimizing performance, and ensuring consistent UI across devices.
- Hands-on experience with building CRUD functionalities, managing user roles through role-based authorization, and integrating image upload features into web views. Skilled in creating reliable APIs, improving data handling, and ensuring secure access control.

SmartSched CapStone - School Project I

Front-End Developer

JAN 2025 - APRIL 2025

- Designed a calendar scheduling app with an intuitive and user-friendly interface.
- Developed and implemented UI components, including date pickers, time slots, and notifications.
- Created a music feature that allows continuous playback even when switching screens.

ABU Robocon

Mechanical Engineer

JAN 2024 - JUL 2024

- Developed control algorithms for autonomous and manual robot operations.
- Collaborated with electronics and software teams to integrate mechanical systems with sensors and actuators.
